Lash lift is an ever growing popular treatment which is a great alternative to clients who do not want eyelash extensions.

The lash lift treatment uses a silicone pad; it lifts each individual eyelash, adding an appearance of volume and length to the eyelashes.

A great treatment to add to your service menu! You can choose the size of curl you require dependant on your clients own natural lashes.

This course also teaches you the procedure to perform an Eyelash Tinting Treatment.

Lash lifting will last up to 6 weeks.

Course manuals will be provided to you on your training day.

You are not required to bring any products with you as everything will be provided that you need.

The lash lift & tinting course will cover:

Health & Safety

Client Consultation Contra-Indications

Contra-actions

Patch testing procedure

Demonstration of the treatment

Student will perform at least one treatment on a model Aftercare

What qualification will I receive?

When you have successfully completed your Lash Lift & Tint Course you will receive and accredited diploma. All courses are accredited by The Association of Beauty Therapists. This not only demonstrates your commitment to the training, but also allows you to obtain Public Liability insurance so you can start offering treatments to paying clients.
